Handbook of Information Science

DE GRUYTER
SAUR

Contents

A. Introduction to Information Science 1

A.1 What is Information Science? 3
A.2 Knowledge and Information 20
A.3 Information and Understanding 50
A.4 Documents 62
A.5 Information Literacy 78

Information Retrieval

B. Propaedeutics of Information Retrieval 91

B.1 History of Information Retrieval 93
B.2 Basic Ideas of Information Retrieval 105
B.3 Relevance and Pertinence 118
B.4 Crawlers 129
B.5 Typology of Information Retrieval Systems 141
B.6 Architecture of Retrieval Systems 157

C. Natural Language Processing—167

C.1 n-Grams 169
C.2 Words 179
C.3 Phrases – Named Entities – Compounds – Semantic Environments 198
C.4 Anaphora 219
C.5 Fault-Tolerant Retrieval 227

D. Boolean Retrieval Systems 239

D.1 Boolean Retrieval 241
D.2 Search Strategies —— 253
D.3 Weighted Boolean Retrieval 266

E. Classical Retrieval Models 275

E.1 Text Statistics 277
E.2 Vector Space Model 289
E.3 Probabilistic Model 301
E.4 Retrieval of Non-Textual Documents 312

F. Web Information Retrieval 327

F.1 Link Topology 329
F.2 Ranking Factors 345
F.3 Personalized Retrieval 361
F.4 Topic Detection and Tracking 366

G. Special Problems of Information Retrieval 375
G.1 Social Networks and "Small Worlds" 377
G.2 Visual Retrieval Tools 389
G.3 Cross-Language Information Retrieval 399
G.4 (Semi-)Automatic Query Expansion 408
G.5 Recommender Systems 416
G.6 Passage Retrieval and Question Answering 423
G.7 Emotional Retrieval and Sentiment Analysis 430

H. Empirical Investigations on Information Retrieval —— 443
H.1 Informetric Analyses 445
H.2 Analytical tools and Methods 453
H.3 User and Usage Research 465
H.4 Evaluation of Retrieval Systems 481

Knowledge Representation

I. Propaedeutics of Knowledge Representation —— 501
I.1 History of Knowledge Representation 503
1.2 Basic Ideas of Knowledge Representation 519
1.3 Concepts 531
1.4 Semantic Relations 547

J. Metadata 565
J.1 Bibliographic Metadata 567
J.2 Metadata about Objects 586
J.3 Non-Topical Information Filters —— 598

K. Folksonomies 609
K.1 Social Tagging 611
K.2 TagGardening 621
K.3 Folksonomies and Relevance Ranking 629

L. Knowledge Organization Systems 633
L.1 Nomenclature 635
L.2 Classification 647
L.3 Thesaurus 675
L.4 Ontology 697
L.5 Faceted Knowledge Organization Systems 707
L.6 Crosswalks between Knowledge Organization Systems

M. Text-Oriented Knowledge Organization Methods 733
M.1 Text-Word Method 735
M.2 Citation Indexing 744

N. Indexing 757
N.1 Intellectual Indexing 759
N.2 Automatic Indexing 772

0. Summarization 781
0.1 Abstracts 783
0.2 Extracts 796

P. Empirical Investigations on Knowledge Representation 807
P.1 Evaluation of Knowledge Organization Systems 809
P.2 Evaluation of Indexing and Summarization 817

Q. Glossary and Indexes 827
Q.1 Glossary 829
Q.2 List of Abbreviations 851
Q.3 List of Tables 854
Q.4 List of Figures 855
Q.5 Index of Names 860
Q.6 Subject Index 879
